Details

Description

The UK company was founded in 2010 by a BAFTA (British Academy of Film and Television Arts) member, producer and director. He is known for his work on "Harry Potter and the Prisoner of Azkaban" and many successful UK TV series such as "Last of the Summer Wine" and "Rocket Man".

The company uses state of the art editing software and graphic packages, which makes them a truly independent media production company. The equipment used is a BBC (British Broadcasting Corporation) approved high-definition shooting kit with the Canon XF305, which covers a wide range of filming requirements. Where appropriate, equipment such as Go Pros, Blackmagic computers and HDV (high-definition video) cameras may also be used. 4K technology filming options with a Canon XC-10 kit are also available. The company may hire additional kit and crew depending on the requirements of the shoot or project.

The UK company offers end-to-end project management from developing a script and outline, to post-production including film editing, visual effects (VFX), music and sound design.

Over the years, the company has gained experience dealing with large corporate clients such as Yahoo!, UMB and Eon. More recently the company has produced a variety of corporate videos, online sizzles and various promos, including TV highlights, 30 second menu spots and TV commercials for a large UK telecommunications company and a worldwide nature

conservation group.

This UK company has been recognised with four Videographer Awards and two German Agency Awards (Deutscher Agenturpreis) for their work in website animation and overall video production between 2014 and 2016. Furthermore, the company has been awarded with a TMT Media Award in 2016 for providing the best possible service to their clients.

The company would like to further develop its business worldwide and is therefore offering its services to overseas partners of all sizes, across a variety of sectors. It is also available through subcontracting agreements for projects with international film and production companies for specialisms such as video editing, animation, lighting and music design.

Advantages and Innovations

Potential partners can expect the following advantages of working with this company:

- The founder of the UK company has over 15 years experience in the film and television industry and extensive technical skills.
- The equipment used to capture footage is of high-definition and 4K technology.
- Extensive experience working on small scale projects such as online sizzlers and promos as well as large scale film productions such as Harry Potter.
- The UK company has experience dealing with partners across Europe, Asia and the USA.
- Has built up a good network of freelancers who may be hired for large scale projects at short notice.

Partner Sought

Type and Role of Partner Sought

The company is interested in partnering with SMEs and larger companies who require the services of a video production company for promotional, commercial and corporate films etc. It is also interested in collaborating on projects with international film and production companies through a subcontracting agreement.

The UK company wants the collaboration to work for both parties and so is prepared to be flexible for new ventures. However, it is essential that funding for projects has been acquired and is available once a partnership agreement has been made.

The company also expects to develop long-term collaborations with partners that are knowledgeable, responsive and work with honesty and integrity.
